MEDICAL.

PLAIN TRUTHS

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the *only* sure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well known, and the highest medical authorities agree that *nothing* but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

BROWN'S IRON BITTERS will thoroughly and quickly assimilate with the blood, purifying and strengthening it, and thus drive disease from any part of the system, and it will *not* blacken the teeth, cause headache or constipation, and is positively *not* injurious.

Saved his Child.

17 N. Eutaw St., Baltimore, Md. Feb. 12, 1880.

Gents:—Upon the recommendation of a friend I tried BROWN'S IRON BITTERS as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three daughters by the terrible disease, under the care of eminent physicians, I was loth to believe that anything could arrest the progress of the disease, but, to my great surprise, before my daughter had taken one bottle of BROWN'S IRON BITTERS, she began to mend and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted he quickly said "Tonics were required;" and when informed that the elder sister was taking BROWN'S IRON BITTERS, responded "that is a good tonic, take it."

ADORAM PHELPS.

BROWN'S IRON BITTERS effectually cures Dyspepsia, Indigestion and Weakness, and renders the greatest relief and benefit to persons suffering from such wasting diseases as Consumption, Kidney Complaints, etc.

DOWNS' ELIXIR.

N. H. DOWNS'

Vegetable Balsamic

ELIXIR

This valuable medicine is purely vegetable; the discovery of which was the result of many years' close study, in order to discover the cause, the symptoms, and the cure—viz:

Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Pleurisy, Hoarseness, Influenza, Spitting Blood, Bronchitis, and every species of oppression of the Chest and Lungs. In all cases where this Elixir has been duly administered its efficacy has been invariably manifested, convincing the most incredulous that

CONSUMPTION

is not incurable, if properly attended to.—Consumption, at its commencement, is but a slight irritation of the membranes which covers the Lungs; then an inflamation, when the cough is more observable, but rather dry; then becomes local fever and the pulse more frequent, the cheeks flush and chillsmore common. This Elixir in curing the above complaints, operates so as to remove all morbid irritations and inflammation from the lungs to the surface, and finally expel them from the system. It facilitates expectoration.

It heals the ulcerated surfaces

and relieves the cough and makes the breathing easy. It supports the strength and at the same time reduces the fever. It is free from strong opiate and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient; whereas this medicine never dries or stops the cough, but, by removing the cause, generally destroys the hectic before the cough is entirely gone. Consequently, when the cough is cured the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 35 cts., 50 cts., and $1.00 per bottle.

THE PRESS.

MONDAY MORNING, MARCH 20.

ELECTON, MONDAY, MAR. 20.

FOR MAYOR,

CHARLES F. LIBBY

We do not read anonymous letters and communications. The name and address of the writer are in all cases indispensable, not necessarily for publication but as a guaranty of good faith.

We cannot undertake to return or preserve communications that are not used.

The Balloting To-Day.

The importance of to-day's balloting should not be under-estimated. It is in every way desirable that there should be an election by the people. Republicans can secure that result by going to the polls and voting. We believe it to be the duty of all Republicans who are anxious to strengthen the party organization and to promote its efficiency to come out and vote for the regularly nominated candidate, as we believe it the duty of all good citizens who wish a strong, energetic and wisely administered City Government to cast their ballots for Mr. Libby. In this instance, as so often before, the interests of the Republican party and of the community are identical. The wellfare of the one can be best promoted by voting for the candidate of the other.

Of Mr. Libby's eminent qualifications for Mayor there is no necessity for again speaking at length. They have been fully and repeatedly set forth in these columns. We can only repeat, what we have said so many times before, that in selecting him the city will secure an officer of marked admininistrative and executive ability, a faithful steward, and a magistrate without reproach. We trust the Republicans will turn out in strength and give him the support that is due to his merits and to the party organization that put him in nomination.

Freedom of Opinion.

In discussing the cardinal principles of the Republican party it should be borne in mind that free speech is one of them. We cannot believe that many Republicans will ignore that principle and proscribe a man for opinion's sake. The Republican party has probably never framed a platform upon every plank of which all its members could stand. How many Republicans disbelieve in the Chinese resolution of 1880! Are Senator Hoar and others to be cast out of membership on that account? How many disbelieve in the civil service resolution of 1876! Are they to be ostracised for that? How many disbelieve in a high protective tariff! Are you going to run them out of the party because of that? As long as they are loyal to the organization, support its candidates, carry out its declared policy when called upon to execute it, all reasonable demands are certainly satisfied. Some of our judges may have doubts of the wisdom of our divorce laws. That does not prevent them from respecting these laws in their decisions. In States where capital punishment exists governors and sheriffs are not infrequently found who do not believe in the death penalty. But they are faithful in the execution of the laws. Republicans will do well to attend to these considerations to-day.

RAILROAD building has taken a start that if continued, will make this year's construction the largest the United States has ever created. Up to last week the number of miles of track laid since January was 604; last year for the corresponding period the amount was 254 miles, and in 1880 when the total construction was 7,174 miles, 575 miles were made before the middle of March. The activity this year is not so much due to the comparatively low price of steel and iron rails, from $58 to $48 per ton; as to the demands of trade and commerce for outlets. Indeed the largest amount of railroad yet built was constructed in 1871, 7,379 miles, when bar iron was selling from $70 to $90 per ton. Fifty years building has added to the ninety-five miles in operation in 1831, 93,580 miles in this country, out of a total for the world of 226,442 miles. This magnitude of the operation of these roads may be partially conceived from the statistics of capital and earnings in 1880. The capital and funded debt at that time was $4,897,401,997, or more than double the National debt, while the year's earnings amounted to $615,400,000.

CUBAN agitation has again taken on the form of a movement for the autonomy of the island, and to meet the attempts of the secessionists, Spain has conferred upon General Prendergast in command dictatorial powers and the right to suspend all constitutional guarantees and statutes. The condition of Cuba thus depends on the disposition of one man, and the slightest indiscretion will bring on very formidable complications. The Cubans have a small but influential party in the Spanish Cortes that sympathises with them, and self-government in Cuba, similar to England's government of Canada, is at least a possibility. Sagasta and the present Spanish cabinet is opposed to this movement, but his majority is not so arge in the present Cortes that it cannot be dissipated by the adroit tactics of the combined forces of the radicals and conservatives. The great European holders of colonies are becoming aware that the only way to maintain even the nominal adhesion of these possessions is to grant them the greatest latitude of self-government.

THE lines of battle are formed. The forces will engage to-day. We hope no Republican will drop out of line on plea of illness.

IT is stated upon good authority that the negotiations for the arrangement of a copyright treaty between this country and Great Britain have fallen through, and that there is no immediate prospect of their renewal. The disappointment which this intelligence must occasion will be greater because up to a certain point the proceedings had been carried on with considerable success, and at one time the outlook was full of encouragement. American authors need the protection of a copyright treaty scarcely less than those of Great Britain, for it is obvious that American publishers have little inducement to pay a liberal price for American MSS. when they can use the writings of foreign authors without money and without price. It cannot be denied that this circumstance is a great obstacle to the development of a national literature.

"MACLEAN laughed several times at the testimony given by the Eton students" on his examination before the magistrate, and it seems not improbable from his general behavior that he is "inspired" to become an imitator of Guiteau and that he will on his trial attempt similar antics to those of his great American prototype. If he does, it is likely that the English court will preserve order among the spectators, as Judge Cox did not, but we shall be curious to see how any tribunal under the common law of England can suppress a criminal of the Guiteau stamp and make him behave himself while the trial is going on.

AN observer in the New York stock market bases the present depreciation in railroad stocks on three points. First, the short crops of last year—an argument which has very nearly reached its end. Second, the excessive bonding of much of the new railroad property which is actively quoted. In Texas, for instance, about $50,000 per mile is put on railroads which could have been built for $20,000 a mile, and, of course, interest will have to be forthcoming on the excess or the prices will drop. The third point is over-building—particularly the running of parallel railroads to divide a reasonable business, and the building of experimental lines for the purpose of selling the construction stock and working off the bonds. The railroad bonds are at present more than ever before taken by wealthy men and private bankers, who can stand the loss if depreciation continues better than the classes who formerly invested.

THE New Orleans Times-Democrat draws a lesson from the floods, even before they have begun to subside. Speaking for the farmers it says: "We find ourselves here at the very threshold of the year, without a week's supply of bread or meat—literally paupers; in danger, nay, in certainty, of starving if we be not fed by charity. Had the flood not come, we should have gone on in the old, old way borrowing money upon an unmade crop, mortgaging the labor of a year for mere food! The factors would have come forward as usual, and the weary disheartening routine would have been perpetuated." The moral of the situation it finds to be that real prosperity depends upon diversified crops, "and if the great overflow of 1882 teaches us this much wisdom, we shall live to bless as a benefaction what we now bewail as a calamity!"

THE election of Mr. Libby to-day will be a Republican victory and a great aid to the ticket next Fall. Is it not worth working for?

TEXAS almost doubles her congressional delegation under the new apportionment—the number being increased from 6 to 11—and in the present booming condition of affairs in that state, with a new capitol under contract, an immense stream of immigration and the wealth of flocks, herds and agricultural products increasing with a rapidity unprecedented, a special session of the legislature to redistrict the state was inevitable. Gov. Roberts, however, in his call has laid out work enough to last the legislature all summer, for besides congressional and legislative redistricting, the call mentions the reduction of taxation, changes in the penitentiary system, the disposition of school lands, the railroad question and other matters in relation to which we shall "see small bills" before the session is over.

THE "bird of freedom" has an undisputed right to tangle his talons in the mane of the British lion and scream lustily his superiority this year. Gladstone is especially strong as a financier and the budget of his administration has been awaited with much interest. Instead of revealing, however, the anticipated surplus for next year, the London Times says it will give a total revenue of £84,850,000 against an estimated expenditure of £85,000,000, or a deficit of about $750,000. In comforting contrast Secretary Folger has led us to believe that under existing conditions we may expect a surplus of over eighty millions, and at the same time, if the Sherman bill passes, sell a bond at a higher market price than English consols bearing the same three per cent. rate of interest.

THE cadets of the Charleston citadel, the West Point of the South, left it in the Spring of 1861 to go into the rebel army. On Tuesday week the survivors of that noble band restored the Palmetto flag to its old place on the walls, and there was a banquet, an artillery salute and jubilance generally. The profits of the enterprise for which they left the school in 1861 are manifest in the ruins which still embellish that city in all directions.

THE candidates for Mayor are all able men, and the ablest of them is Charles F. Libby. He is the candidate to vote for.

REPRESENTATIVE Chase of Rhode Island, being a member of the Society of Friends, has declined to take part in the appointments to the military academy at West Point. The President has requested the other members of the delegation to attend to the matter, and they have designated a board to examine applicants.

MOUND CITY, Illinois, is the only flooded town yet heard from which declines outside aid. It says, through its officials: "This city and county cannot afford to allow the report to go abroad that it is a county of paupers depending on government charity."

THE Galveston News warns its Democratic brethren of the South that the Republican party in that section is now in shape to be feared, and is under more effective and intelligent guidance than it has had for years.

THE new editor of the Nashville Banner in saluting his constituency expresses the hope that Tennessee may under the educational influence of his paper have a Democracy "fit to join hands with that of New York." Some men are easily satisfied.

FATHER Quigley, of Troy, accounts for the apparitions of the Virgin Mary said to have been witnessed in that city on the theory of "warm imaginations filled with the fervor of irregular piety."

AT an auction sale of coins in New York Monday, one of the four half dollars made by the rebels at the New Orleans mint when they first stole that institution in 1861, was sold for $800.

LAKE BLUFF, Ill., will get a good talking to on the Fourth of July, Senators Davis, Logan and Mahone being booked for the occasion.

The circumstances detailed by Robbins, as related by his wife, are of the most flagrant nature. The justice declined to grant a warrant on the statement of the wife to her husband, but desired testimony of the wife, which Robbins returned to Warren to obtain.

The apportionment of the passenger business among the various companies was arranged in detail and when approved by Mr Fink will be made public. It was stated by Mr. Fink that the apportionment affects only those railroad lines which run into Chicago. The new division of the passenger traffic will go into effect on the first of next April and the different companies will be bound to adhere to the agreement or pay a heavy forfeiture. WASHINGTON.

Mr. Cook Retires from the Star Route Cases.

WASHINGTON, March 18.—Mr. Cook sent his formal resignation as special attorney in the star route cases to Attorney General Brewster on the 14th inst. He refers to his appointment by the late President, and retirement of McVeagh on the incoming of the present administration, and says several cases have been brought before the courts by Mr. Bliss on evidence procurred prior to September last, and whether the strongest and most important cases have been included it is not for him (Cook) to determine. The present is an appropriate time for his retirement, which he respectfully submits for Attorney General Brewster's action. In accepting Mr. Cook's resignation, Attorney General Brewster says he (Brewster) if he had not been advanced to his present position would have continued to act for the government without complicating his relation as counsel with the supposed policy of any administration as the cases will be conducted on the principle of justice without reference to the wishes or policy of any President, whatever his name may be. Mr. Brewster says indictments have been found and are about to be tried, and at this juncture he (Cook) on the eve of the trial withdraws from cases. He accepts Cook's resignation with thanks for the personal respect expressed.

The Visiting Zunis.

The Zuni Indians called upon the President this afternoon, accompanied by Mr. Stevenson and Mr. Cushing. They knew that General Washington was dead, but they believe that the President is his lineal descendant, and they were very desirous of seeing and touching him. The President expressed to them through Mr. Cushing, his pleasure at meeting them. They were introduced individually. Several of them made remarks, which were interpreted by Mr. Cushing. One said: "The days have now come when we take our Father Washington by the warm hand. We look upon him and he looks upon us." Another said: "May the light of God shine on you." Clark Mills to-day took casts of their faces. They will not leave for Boston until Monday; so that the aged chief, who has been quite ill, will be able to accompany them.

The Consular Service.

The Senate committee on appropriations today completed their consideration of the consular and diplomatic appropriation bill and will report it to the Senate next Monday with a number of amendments, the most important of which are as follows: The committee strike out the House provisions for consolidating the Brazilian and Chilian legation and missions to Uruguay and the Argentine Republic, and provides as heretofore for United States Charge d'Affairs at Paraguay and Uruguay. Provision is also made for continuing our secretaries of legation at St. Petersburg, Vienna and Rome instead of devolving their duties on consul-generals at those points as proposed by the House of Representatives. The House provision for consolidating the consulates of Panama and Aspinwall to disagree is to and a separate provision made for each. The committee also restored (with unimportant exceptions) the classification of various consulates in the house bill to existing order. The House provision for placing the conduct of our diplomatic business in Greece and Servia under the sole charge of the United States Minister and Consul-general at Bucharest, Roumania, is however agreed to without amendment.

MARINE NEWS.

Thrilling Experience of a Sh wrecked Crew.

DETAILS OF THE LOSS OF THE SHIP SCREAMER.

PROVINCETOWN, Mass., March 19.—There arrived yesterday afternoon a brig which anchored well out in the Harbour, no communication being had with her until to-day, when it proved to be the Addie Benson of Digby, Millett, Havana for St. John, N. B., having on board Capt. Luce, two mates and 12 seamen from the ship Screamer which sank on the 10th inst., in lat. 34° 40' north, lon. 74° 47' west. The Screamer sailed from Philadelphia, March 6th, for New Orleans with coal. On the night of the 9th a gale commenced which on the morning of the 10th was heavy, the ship laboring heavily and at 5 o'clock commencing to leak which continued steadily to gain despite all efforts of the crew. At 10 a. m. they gave up all hopes and set signals of distress which were soon after answered by Capt. Millett who came near and laid by. Soon after it moderated and they launched one boat which was stove, then launched the life boat, and seven men putting off for the brig, reaching her all right but in their eagerness to save themselves all jumped on board and let the boat go adrift. Capt. Millett put out his small boat and succeeded in reaching the life boat and bringing it to his vessel. No one volunteering to take charge he decided to do so himself when J. W. Doane, steward of the brig, a native of Digby, offered his services which were accepted. Both Capt. Millett and Capt. Luce speak in terms of the highest praise of the will displayed by Doane in saving the lives of all but four of the ship's crew. Before the boat commanded by Doane could reach the ship the latter fell over on her beam ends and soon after sank going down head first and precipitating the captain and men into the water.

Of these all were saved but three who went down before they could be reached. Before the ship went over the captain launched a small boat, three men getting into it, but it immediately and filled with water two again jumped on board. The third was not so quick and the sea washed the boat away from the vessel and when last seen it was drifting to the leeward with the mainsail on. He may have been rescued by some passing vessel, but it is doubtful. Captain Luce and officers and men saved nothing. The addition of such a number to the crew of the brig obliged the captain to put all hands on short allowance, and when this morning came the last of the provisions were gone. The rescued from the ship are Captain D. Luce of Holliston, Mass., D. S. Nickerson, mate of Bangor, Me.; Joseph Williams, Second Mate, of New York; Edward Condon, Waldoboro, Me.; Joseph McKey, Chicago; John Doherty, Providence, R. I.; John McNulty, Martin Gilday, Philadelphia; Frank Moar, Austria; William McAtamany of Liverpool; August Grevim of Germany; Peter Williams, L. Tallbard, William Ludholm and John Peterce of Finland.

The wind moderating, the captain of the brig and the shipwrecked crew came on shore this afternoon and reported the condition of affairs to James Gifford, Esq., collector of the port, who with the assistance of M L. Adams, overseer of the poor, supplied them with such food, clothing, etc., as they needed. The shipwrecked crew presented a pitiful appearance, some having barely clothing enough to cover themselves. Collections were taken up at all the churches this evening in aid of the sufferers. Captain Luce wishes to publicly express his thanks to Captain Millett for his gallant and humane conduct in rescuing himself and crew, also to Doane for his brave action as before reported.

A Gale at Sea.

PORTSMOUTH, N. H., March 18.—A heavy sea is making considerable inroads along the beaches, where large sandbars have been formed. Water stands from six to ten inches deep over some of the roads and is still rising. A considerable quantity of wrecked material is scattered along shore, probably from the wrecked schooner E. A. Eliot of and from Winterport, which went ashore this morning on Cod Rock near Gerrish Island. No lives were lost. The vessel was loaded with one hundred tons of hay, which is strewn along the shore.

SERGEANT MASON.

Subscriptions and Petitions Pouring In.

WASHINGTON, March 18.—Subscriptions for the benefit of the family of Sergeant Mason are being made up in all the government departments, and the indications are that a handsome sum will be realized. Col. Corbin has started a subscription in the war department. In the meantime petitions and application of all sorts for executive clemency in the case of the prisoner himself are pouring in upon the President from all quarters.

Mr. Bigelow, counsel for Sergeant Mason, is confident he has discovered points in the proceedings of the court martial which tried his client that will invalidate the finding and sentence. The points upon which he relies are of various informalities in the organization of the court and failure to have Mason present at certain stages of the proceedings when his presence was essential.

A Voluminous Document

CHICAGO, March 18.—M. E. Dickson of this city started for Washington to-night with a petition for the pardon of Sergeant Mason. The petition is 2400 feet long and is said to contain 120,000 names. It is elaborately gotten up and required two expert paper hangers two hours to fold it properly.

TELEGRAPH CONSOLIDATIONS.

The Western Union Company Absorbing all its Competitors.

NEW YORK, March 18.—The Commercial says—"Touching telegraph competition with the Western Union system we have reason to believe that the Mutual Union, the Baltimore & Ohio Telegraph, and one or more small competitors will be drawn off in the course of a week or two. The most important of these, the Mutual company, we suppose have already informally agreed to transfer their wires to the Western Union. The line of telegraph promoted, and, indeed, owned between New York and Chicago by the Baltimore and Ohio road, will also be transferred as part of the consideration for settling with Mr Gould and his associates for a majority of the Central New Jersey Board of Directors, whereby the Baltimore and Ohio and Philadelphia and Reading reach the bay of New York without further opposition.

A Revolting Report from Arkansas.

HELENA, Mar 19.—Latest advices from the upper St. Francis river are that the people of that section are almost reduced to cannibalism. They have eaten carcasses for some days and now have all the appearance of about to become insane from starvation.

Col. A. H. Johnson, President of the Arkansas Midland railroad, returned today from Hot Springs. He came down by a skiff to Helena from the mouth of St. Francis river. He says the scene along the route is most distressing, and the stench of dead animals revolting, and when the waters decline it must be still more fearful.

The earth is left covered with a thick slimy substance of reptiles of every kind and the smell and miasma produced from drying substances must inevitably be serious in its consequences.

Serious Charge Against an American Consul.

SAN FRANCISCO, March 18.—Several Chinese women, supposed to be of bad character, who arrived on the British steamer Anjier Head, and were held by the authorities to be sent back to China, were brought into the Superior Court yesterday on a habeas corpus. Captain Roper of the Anjier Head testified to a great laxity on the part of American Consul Mosby in relation to Chinese immigrants. In proof of this he produced blank printed forms signed by Mosby and bearing his consular seal, the same being certificates required to be produced by immigrants, which Captain Roper stated he could himself fill in as he chose.

Frauds in Mexican Claims Commission Awards.

NEW YORK, March 18.—A Washington special says it has been discovered that the two chief awards made by the Mexican claims commission to the extent of $1,200,000 were obtained by perjury and fraud, and the Secretary of State has stopped the payment of the installment due at this time. The Secretary of State has a treaty ready for presentation to the Senate between Mexico and the United States relative to this matter, and such disclosures of fraud, perjury and conspiracy will be made by the representatives of the Mexican Government that it is believed no hesitation will be felt as to the proper course of action.

Indignant Boatmen.

NEW LONDON, Conn., March 18.—Boatmen here are indignant at the statement of City Physician Hobron that he could not get any one to take him off yesterday to the brig Vigas lying in the harbor with small-pox. Several of them say that they offered to take him out in a small boat, but that he refused to go. This morning a crew ventured to go out to the infected ship and manned the tug Burnside, tendered by the Thames Tow Boat Company. Capt. Moreline was found very weak and is probably dying. The second mate is now down. The crew expressed much chagrin at the neglect of the city to provide proper relief.

Another Comet Discovered.

ALBANY, N. Y., March 18.—About 4 o'clock this morning Chas. S. Wells of the Dudley Observatory here discovered a bright comet in Hercules, right ascension, 17 hours, 52 minutes north, declination 32, 30 minutes. The comet has a tail of about five minutes in length and a nucleus of about the eighth magnitude.

The Garfield Monument.

CLEVELAND, O., March 18.—The committee on the national monument to be erected at the grave of the late President Garfield state subscriptions amounting to $116,000 have already been received and urge the several States and Territories to increase the sum to $250,000, of which Ohio will furnish one-half. Subscriptions can be sent to the above committee.

The Supreme Court of Rhode Island, Saturday, considered the proposed terms of the sale of the Sprague estate, and the matter was continued to Wednesday.

LABOR TROUBLES.

The Lawrence Strike on the Increase.

ENTHUSIASTIC MASS MEETING IN CITY HALL.

LAWRENCE, Mass., March 18.—The strike of the 350 weavers this afternoon puts a more alarming aspect upon affairs at the Pacific Mills. There are now 975 spindles vacated by ring spinners and 900 looms are idle, besides the entire carding and picking departments. The number of strikers is swollen to over 700 and other weavers at the Central Pacific numbering 400 declare to-night their intention not to resume work Monday. The strike of the weavers was unexpected at this time as the reduction of their wages was not to take effect till the 27th. This evening a mass meeting was held in City Hall. Every available space was occupied and the utmost enthusiasm prevailed. Mayor Breen presided and in a speech counselled moderation, asking the operatives to consider the question calmly. He expressed sympathy for them, but said he did not feel competent to advise them what course to pursue. Peter McCorry, editor of the Catholic Herald, spoke, advising the strikers to arbitrate with the manufacturers and if the full amount of the reduction was not restored to accept such terms as were offered for the present but organize for the future. A prominent merchant recommended the strikers to continue and offered substantial aid. Lewis Tower, clerk of the board of health, also counselled the strikers to continue the course they have taken. Resolutions were then adopted expressing sympathy with the strikers and recommending the appointment of a board of arbitration. At a subsequent meeting of the operatives a committee consisting of Mayor Breen, to represent the citizens, a weaver and a spinner to represent their fellow workmen, and one member at large was appointed to wait upon and consult with the directors of the Pacific Mills in Boston on Monday. The strikers declare they will not return to work until the old prices are restored.

Everything is quiet in the city but Monday's developments are awaited with anxiety, for if the strikers do not return the entire Pacific Mills will shut down, stopping 20,000 spindles and throwing between 5,500 and 6,000 people out of employment.

[LATER.]

LAWRENCE, March 19.

The committee appointed by the meeting to consult with the directors of the Pacific mills go to Boston to-morrow. Facts concerning the strike learned to-day from the most reliable source are as follows: The spinners leave work because if they remained they would receive but 68 cents a day for which they previously received 90 cents. They have been running eight sides and if they work under the reduction they must run ten sides to make 85 cents. A strike of the weavers is not unexpected by the mill managers, but they surmised it would be more general when first inaugurated. Weavers have been paid on an average $8 to $10 per week, but under the reduction they will receive from $7 to $9. The reduction itemized is as follows: Box loom weavers, 10 cents a cut; Jacquard loom weavers, 5 cents a cut on two classes of goods only, known as "K J" and "S J"; on plain work where four looms are run the reduction is one cent now where three looms 5 cents a cut; section hands are cut from $2.35 a day to $2.20, and from $2.20 to $2; section girls from $1.40 to to $1.30. The superintendent of the weaving department states his instructions are that box loom weavers shall average not less than $1.25 per day. He says the Jacquard looms are being gradually replaced with box looms for the manufacture of checkered goods and that 500 looms have been operated for months on worsted goods at a loss, the corporation desiring to keep experienced help employed even at an expense.

The total number of strikers at present from the upper and lower Pacific Mills is 220 spinners (girls), 33 band boys, and 350 weavers. These during the past week have thrown out of employment 100 spoolers, 60 warpers and 250 carders, making the total number out last week on account of the strike over 1000. Whether the other worsted weavers will strike to-morrow is now an open question. Should they strike the Pacific Mills will, it is understood, shut down for an indefinite period. The print works, however, will be kept running. Should the Pacific stop over 5000 operatives will be idle a majority of whom are women and girls who have little saved, and cannot long remain unemployed.

There is no doubt that the worsted department of the Pacific has been for months operated at a loss. Under the new regime, old and experienced superintendents and overseers have been discharged, but readily obtained employment with other manufacturers making the same goods as the Pacific, thus bringing the other mills, which are paying less to their help, into direct competition. Great excitement was caused to-day among the operatives by the action of Rev. Father O'Regan, pastor of St. Mary's church, the principal Catholic church in the city. At the morning services he counselled the strikers to return to work to-morrow and denounced the leaders of the strike movement. During his remarks a number left the church. Undoubtedly some wish to return but are detained by their fellows from so doing; in fact some have asked the overseers if they would get work, should they return, and have been told they could. Store keepers look upon the strike as disastrous to their interests, but as a rule sympathize with the strikers. It is understood from the best authority that a general lockout will ensue should more of the weavers join the strike, which they now meditate doing. The city has been quiet to-day. No disturbances were caused by the strikers, who, since they left the mill, have conducted themselves in a most orderly manner.

Fall River Operatives on the Watch.

FALL RIVER, March 18.—Operatives here watch with absorbing interest the progress of the Lawrence strike. No action has yet been taken by the spinners' union or is likely to be unless the strike extends to the mule spinners. Letters received here from Lawrence give reason to suppose the mule spinners may strike Tuesday.

XLVIIth Congress—1st Session.

HOUSE.

WASHINGTON, March 18.

A small attendance of members was present when the House met for debate only on the Chinese bill.

Mr. Speer of Georgia was the first speaker. In the contest, he said, between the United States and China, the former had no unequal adversary. "The little brown man," eulogized by Joaquin Miller, was a born diplomatist and the United States was dealing with a renowned empire. This bill was a measure of self-defence and no other question which could be presented to the present Congress was of more importance. Peace had its victories and the passage of this bill would be one of the victories of peace which would be hailed with the acclamations of an almost unanimous people.

Mr Deuster of Wisconsin said he should vote for the bill and urged Congress to stamp this threatening danger out of existence before it grew large enough to require the most serious measures for its suppression.

Mr. Guenther of Wisconsin advocated the bill.

Mr. Moore of Tennessee thought it was his patriotic duty to vote against the bill.

Mr. Berry of California advocated the bill.

SMALL POX.

Canines and Felines Sacrificed to Prevent Infection.

BETHLEHEM, Pa., March 18.—The small pox in South Bethlehem appears to be on the increase. All the dogs and cats are being killed to prevent it from spreading. It is stated that that there are now over 200 cases. Nurses are scarce. The streets are deserted and the disease is spreading to other localities.

Later.—The people tonight feel more sanguine of their ability to check the spread of the contagion than at any time this week though those who are best informed admit that the condition in South Bethlehem is sad and cheerless. There was one death to-day and three new cases were reported to-night in families where the disease had not previously visited, and the number is slowly but steadily increasing.

SOUTH BETHLEHEM, Pa., March 19.—The small pox excitement here continues though more subdued than last week because of a belief that the epidemic is now under control. Nearly every person here and in Bethlehem has been vaccinated and the good results are already apparent. Only four new cases have been reported to-day. Eighteen deaths are reported since Friday and two to-day.

CHILI-PERU.

Mr. Trescott Agrees to the Former's Terms for Peace.

LONDON, March 18.—Advices from Buenos Ayres to Feb. 24 state that Mr. Walker Blaine was about to resign his mission, and would return to the United States with Mr. Trescott. A new American envoy is expected. A protocol has been signed at Santiago, wherein Chili declares that she meant no offence to the United States by the arrest of Senor Calderon. Mr. Trescott repudiates Mr. Hurlbut's action as offensive to Chili. The Chilian government declares that it will not treat with Senor Calderon, and will make peace only on the following conditions: The cession of Tarapaca in perpetuity, the occupation of Peru as far as Moquegua and an indemnity of $20,000,000 was paid, and the possession of half of the guano islands of Peru. Mr. Trescott agreed to these conditions, and has forwarded a copy of them to Washington.

One Hundred Miners on a Strike.

SALT LAKE CITY, March 19.—The men at the Horn Silver smelting works at Francklyn, numbering 100, struck this afternoon for a shorter time and took possession of the works, closed them and now hold them under guard refusing to give way to other men. Superintendent Hill is in consultation with Gov. Murray as to whether he shall proceed to recover the works through the courts or call on the military.

THE SOUTHERN FLOOD.

Not a Very Cheerful Outlook.

PEOPLE IN A STARVING CONDITION.

NEW ORLEANS, March 18.—A resumé of the week shows a large increase of area covered by floods from Helena to the mouth of the Mississippi river. In the Yazoo valley the water is reported to be rising rapidly. Four steamers are constantly traversing the section, carrying supplies and bringing out people and stock. In the Yazoo delta from Vicksburg to Coldwater, a distance by the river of 400 miles, and from the hills on the east to the Mississippi on the west, 40 to 60 miles in width, and the greater part of the lowlands, are submerged, including Coldwater, Tallahatchie, Yazoo, Sunflower and Deer creek. Some loss of life is reported.

The government steamer Anita left Vicksburg yesterday to distribute rations and render assistance. Her commander, Capt. Lee, telegraphed Gen. Beckwith that the greatest destitution and destruction of property prevails in the back counties. Several thousand rations per week should be sent to the state agent at Vicksburg for them, until the floods subside, and 100,000 rations per week to the state agent at Memphis for the Mississippi counties on river points, also tents for both places. Great reaches of Milliken's Bend levee in Madison parish, Louisiana, gave way yesterday, the crevasses aggregating some two miles in length The water from these will cover the greater part of the parish. The joint water of the crevasses in Tensar and Cordia flow into Bayou Macon, Black, Onachita and Atchafalga rivers.

The whole country about Eagle Bend is under water, and terrible suffering is experienced. Houses are floating for miles in the country.

Steamer Cannon arrived at Vicksburg yesterday. Capt. Campbell says he rescued over 200 head of cattle, mules, &c., also a number of families from the ends of levees. At one place he rescued about thirty people from the swamps who were literally starving. The pilots report five feet of water over Newton, Miss., and all below except Natchez is submerged.

Much suffering is reported in the overflowed section from Camden, Ark., to the mouth of Bayou Bartholomew and from 25 miles below Monroe to the mouth of Black river. Government rations for fifteen days have been sent to this section. The water along the lower Onachita is six inches higher than in 1874.

The recent crevasses on the west side of the Mississippi will probably carry the water there still higher, though the Onachita is reported falling slowly. At Monroe the Red river is also falling.

Considerable damage is caused by the Pointe Coupee crevasse which is now a quarter of a mile wide, but so far the damage is not as great as expected.

So far the damage to the sugar producing section of Louisiana is comparatively light.

VICKSBURG, Miss., March 18.—The river rose two inches the last 24 hours. Gov. Lowry and Commissioner Hemingway were in the city today giving attention to the needs of persons in the overflowed sections. Judging from telegrams received by them the whole country above and below here is submerged and great destitution prevails. Officers of steamer Paris Brown report passing three "floaters" below here.

Business on the levee district here has been entirely suspended and everything in the way of floating property has been brought into requisition for the benefit of the sufferers. The commissioner says that the whole country from Ellis Cliff to Fort Adams is submerged.

The steamer left this evening for Big Deer Creek with a large amount of supplies for the needy on that stream.

WALL STREET.

The Bears Demoralized—The Pool in Denver—The Hannibal and St. Joseph Controversy

NEW YORK, March 18.—Wall street reports state that the bears are demoralized. An attempt to bring about a concerted attack yesterday proved a failure, and resulted in some of the big bears giving an order to cover. The rise was so strong that a prominent commission house was instructed to check it in order to have something left for to-day. The feeling is that the market should have a reaction and then a further advance. Nearly all commission houses reported better outside buying yesterday than upon any previous day for a long time. The foreign demand continues good and large purchases were made yesterday. Illinois Central, Burlington and Quincy, New York Central and Western Union are going abroad. Offering of security bills continue very large.

The pool in Denver, said to contain Messrs. Gould, Osborn and Work, advanced the stock yesterday. It is believed that Union Pacific interests will be largely represented in the next Denver directory, although the report that the Union Pacific has obtained control of Denver is doubted. The pool is believed to have bought 30,000 shares within three days. The advance was assisted by large purchases in the Woerishoffer interest, by room traders, on investment and large foreign orders and on alleged covering by Mr. Keene and others. A rumor was current last evening that the April dividend will be paid.

Philadelphia advices state that the counsel of McCalmonts has consented to withdraw objection to the issue of Reading deferred bonds.

The parties interested in the Hannibal and St. Joseph Road do not think the announcement that the Governor of Missouri will sell the road next October will amount to anything serious. A director states that as the matter stands at present there is only a question of the difference of interest now pending, and the company can at any time put a stop to the whole matter by paying that difference, about $50,000. The company, however, believes that the courts will see that the railroad will have its rights accorded. It is understood that on the filing of an amended bill in equity in the United States Circuit Court next week, an application will be made to Judge McCrary in chambers at Keokuk for an order restraining the Governor from selling the road. It is also stated that should the Governor decide to convene the Legislature to redistrict the State he will be importuned to include the Hannibal and St. Joseph question for the consideration of that body.

There is said to be a pool in Missouri Pacific, composed of Messrs. Gould, Field, Sage, Dillon, Hopkins and Perkins, with their immediate friends interested in amounts from 1000 shares upward. The stock is said to have cost the pool below the average of Wednesday's prices. Members of the Gould party say that the large shorts have only begun to cover.

Tennessee bonds advanced yesterday on the calling of a special session of the Legislature April 6. There is a feeling that an adjustment in the Tennessee debt would be a strong bull argument, not only on Southern securities, but in its influence in the general market. New York pressure on the Legislature is expected.

An important advance in New York Central is predicted. Mr. Vanderbilt's plan is said to be to advance the stock materially in the belief that such an advance would cause large buying of the stock here and in Europe.

Mexican national subscriptions advanced yesterday on the report that the Union Pacific Company had acquired control of Denver, and that therefore the Mexican Oriental road would not be built.

There is no doubt of the existence of a strong bull pool in Louisville and Nashville, and insiders talk very confidently of a rise in the stock next week.

The Garrett-Gowen party is said to have secured stock enough to control the Jersey election, even if the new issue should be made. Mr. Vanderbilt's purchases are understood to have been for the purpose of holding the balance of power, as in Reading. The short interest is very large. One house is known to be heavily short.

Western Union was bid up yesterday upon attempted covering by shorts. A large amount of stock was bought for a London house. The new pool is thought to have begun buying. Notices were given yesterday that stock not delivered promptly would be bought in.

Western orders have been received to buy St. Paul and Omaha and Milwaukee and St. Paul.

The second installment of $15,000,000 on De Lesseps Canal Company has been paid in Paris.

A strong movement in Wabash and elevated railroad stocks is expected next week. The Bank of Montreal was among the buyers here yesterday of Minneapolis and Manitoba Railroad bonds of all classes are in active demand.

A Danville (Va.) dispatch says that 3000 feet of waterfront with 1000 horse power were purchased on the Dan river yesterday for the erection of cotton factories, mills and machine shops, for which $46,000 were paid.

SNOWY SHROUDS.

Heavy Storms in California.

SEVERAL PERSONS KILLED BY A SNOW SLIDE.

SAN FRANCISCO, March 19.—Heavy snow storms are interfering with travel and the roads running into the city. A despatch from Alta says the situation is very discouraging. The road was opened last night and trains passed but a heavy snow storm has been raging since and it is deemed impossible to keep the road clear. The snow is five feet deep. A violent snow storm is prevailing at Truckee, a furious snow storm raging at Virginia City and the snow is already three feet deep. A dispatch from Carson says the road is impassable between there and Reno from snow drifts. Neither stage nor train can reach there. The report of a snow slide at Geneva, Nev., is confirmed. Mr. and Mrs. Nimrod Brown and Miss Borlin and a number of Indians variously stated from 7 to 15 were killed. All the bodies have not been recovered.

FOREIGN.

The Relations of Germany and Russia.

NEW YORK, March 18.—A Berlin dispatch says the action taken by the German government in a formal and official manner yesterday has produced a profound feeling of uneasiness. The government in this action stated that it desired through the press to state to the people that it had no confidence in the alleged desire of the Czar to remain on friendly terms with Germany, and that in the opinion of the government the Czar had for all practical purposes abdicated and allowed Gen. Skobeleff to assume the Czarine functions to such an extent as to menace the peace of Europe by turning the Russian government over into the hands of the Panslavist party.

A St. Petersburg dispatch says General Skobeleff has received forty-three challenges to duels in Germany.

LONDON, March 18.—The Paris correspondent of the News has received reliable information that Bismarck thinks seriously of letting the tense relations between Germany and Russia take their course. No confidence is felt in Berlin in the alleged wish of the Czar to remain friendly with Germany.

The Times' correspondent at Berlin says Count Von Wolkenstein, Austrian diplomat, only came here to treat of the Danube question.

An Appeal for Dr. Lamson.

Sir Wm. V. Harcourt, Home Secretary, acknowledges the receipt of an application for the respite of Dr. Lamson, convicted and sentenced to death for the murder of his brother-in-law. The principal grounds for the application, in addition to those previously mentioned, are the absence of a proved motive for the crime, the unreliability of the evidence of the persons who profess having sold the poison and of the experiments on animals.

Alleged Fenian Outrage.

The shed at Royal Albert Docks, London, was burned Saturday. It is supposed the fire was the result of a Fenian plot to fire the docks and make a raid for arms belonging to the dock volunteers.

Giving Him Taffy.

PARIS, March 18.—The National says: "It is quite possible M. Roustan, the newly appointed minister to the United States will never go to Washington. It appears he does not desire to cross the Atlantic and that the government in nominating him for Washington were chiefly desirous of proving that by recalling him from Tunis they were not inflicting any disgrace upon him."

Foreign Notes.

The Crystal Palace Theatre at Marseille[illegible] has been destroyed by fire. Loss 1,000,000 francs. The actors had great difficulty in effecting their escape.

The Berlin press severely criticises the appointment of Mr. Sargent as United States minister to Germany.

Train Robbers' Accomplice Arrested.

INDEPENDENCE, Mo., March 19.—John Mott was arrested in this city Saturday morning for complicity in the robbery of the Chicago and Alton express train at Blue Out last September. At the time of the robbery Mott was telegraph operator of the Chicago and Alton station at Glendale, and the charge is that he kept the gang posted as to the movements of trains and movements of the pursuing officers after the robbery. Detective Gorham who made the arrest says he has absolute proof of Mott's guilt. A special grand jury will investigate the case and sensational developments will follow.

After a daily trial, under your directions, of th eHealth-Lift, during two months, it gives me great pleasure to express to you the very favorable impression it has made upon me. Lifting, as I now do, five hundred pounds, I have never felt the least strain, nor any other injurious effect. On the contrary, the sensations, after lifting, are only those of exhilaration, lightness, increase of muscular force, and a pleasant acceleration of the circulation. Those whom I have sent to you bear the same testimony. In fact, every one who gives the Reactionary Lifter a fair trial becomes fascinated with it. Health-Lift rooms, 201 Middle St. mar20dtf

"I consider the Health-Lift one of the world's greatest blessings." Commencing its use in January, '71, for dyspepsia and severe headache, and weighing 115 pounds, I found myself, in less than a year, entirely free from disease and my weight increased to 150 pounds. I continue its use daily. Health-Lift rooms, 201 Middle St. mar20dtf

Dr. Champlin's Funeral

The funeral services of the late Rev. James T. Champlin, D. D., were held in Free street church Saturday afternoon. It was expected that nearly all the older members of the faculty of Colby University would be present, but owing to ill health only Profe sors Lyford and Hall were able to come. Nearly all the resident alumni of the college were in attendance as well as several from other cities. Hon. Moses Giddings of Bangor, of the trustees, Prof. Edward W. Hall of the faculty, H. A. Hart, Esq., of Portland of the alumni and General Neal Dow acted as pall bearers. The casket was surrounded by floral emblems, including a broken column, cross and crown and sickle and sheaf. A vase of flowers on a stand at the foot of the coffin was from the resident alumni of the college. The services were begun by the choir, who sang "Rest in the Lord" by Hodges. Rev. T. D. Anderson of the First Baptist church then read a selection from the Scriptures.

The choir sang "Only Wait" by C. A. Havens, after which Rev. Asa Dalton of St. Stephens church offered prayer and Rev. Mr. McWhinnie pronounced the benediction. A large number of the audience passed in front of the casket, the alumni last. The latter, as a mark of respect, waited in the vestibule until the mourning family had passed out of the church. The remains were taken to Evergreen cemetery.

It has been ascertained that Harrop purchased a ticket for Minneapolis, Minn., which city has the Gazette's sympathy.

Rally at the Polls.

The Republicans should cast a full vote today for Mr. Libby. If they will only go to the polls the election of our candidate is certain. Let us make a long pull, and a strong pull, and a pull alltogether; and then we can send the welcome news to other towns in the State that Portland has chosen a Republican Mayor, and that the party is in good fighting trim for next Fall's campaign.

Our Fishing Interests.

The Boston Journal says:—"We understand that Mr. Noah Mayo, one of our largest packers of fish, who has extensive wharf facilities in East Boston, has taken a lease of Widgery's wharf in Portland, Maine, as an auxiliary to his fishing and packing business. He has a number of eastern vessels engaged for the coming season, and proposes to go into mackerel more extensively than ever. He will keep his headquarters here, but expects to do a large trade in Portland, when the fleet works down in that direction. His wharf there, we are told, is favorably situated, and will afford good accommodations for fishing vessels that may wish to dispose of their cargoes. It is said that this move of Mr. Mayo's has stirred up a little excitement among the fish packers in Portland, who imagine that it will interfere somewhat with their operations, but they will find Mr. Mayo a man of enterprise and integrity, and we think in the end will be pleased to co-operate with him."

St. Joseph's Home.

The property near Woodford's Corner known as the Old Ladies' Home, which was purchased by Bishop Healy of the estate of the late F. O. J. Smith, has been thoroughly overhauled and remodeled, and will hereafter be devoted in part to a home for aged and indigent Catholic women. It will also contain an orphanage and a hospital. This much needed institution will be in charge of the Sisters of Mercy, who will also have charge of the orphans and the hospital connected with the Home. Mass was celebrated for the first time at the Home yesterday morning at 8.30 o'clock. Rt. Rev. James A. Healy, D. D., officiated, assisted by a number of priests.

A Forger.

It has just come to light that Samuel Bounds, a man who formerly worked for John Snow in Scarboro, has obtained a large lot of goods from parties in Saco by false representations, also forging the name of John Snow, his former employer, to a note. He got one hundred and fifty dollars from a bank in thi city. Officers are after him.

Republicans!

Vote for Libby to-day and make it your business to see your friends and neighbors and urge them to do likewise.

Vote early.

If possible, stay at the polls all day.

Ten earnest Republicans are wanted in each ward to distribute votes.

Let volunteers be on hand to do it.

Let the Republican committee at each ward room be notified of any aged or sick Republican voters to be sent for, as provision has been made in each ward for such voters.

A full Republican vote means victory.

Watch the polls.

Look out for illegal voting of all kinds.

A long pull and a strong pull for Libby is what we want to-day.

Every Republican who took part in the ward caucuses that nominated Mr. Libby is bound in honor to vote for him.

The fact that Mr. Libby is opposed by rumsellers is sufficient proof that temperance men should vote for him.

Mr. Libby is an honest, able man. Vote for him.

The rumseller's league is for Deering to a man.

Every earnest Republican in this city should vote for Libby.

A vote for Libby is a vote to sustain the Republican party.

Personal.

We are glad to hear Mr. Elwell of the Transcript is fast recovering.

Wallace Ross is hard at work training for his coming race. Every day when the water is smooth he may be seen pulling in the harbor.

Ex-Secretary Blaine is visiting his birthplace in Western Pennsylvania, near which are some coal fields in which he is largely interested.

Our readers will be pleased to learn that Mr. George Waterhouse, proprietor of the Merchants' Exchange Hotel, has recovered from his recent attack of severe illness.

Rev. I. P. Quimby at Charlestown, Mass., is at the Preble House. Mr. Quimby was formerly a law student in this city, and it was through his personal efforts the Law Students' Club was organized.

"Aunt" Katie Roberts of Alfred died Wednesday morning last. Had she lived till the 9th of next month she would have been 102 years old. She retained her faculties to a remarkable degree until quite recently.

Express Messenger Allen, who, it will be remembered, was taken suddenly ill while on his car running between Boston and Bangor one day the past week and was carried in an insensible condition to the Bangor House, died Friday evening.

Rev. Dr. Hill of this city, ex-President of Harvard College, will deliver a course of twelve lectures in Bates College Chapel in Lewiston some time during the summer term. The subject of the lectures is "The Postulates of Revelation."

Mr. and Mrs. Fred O. Turner will have the sincere sympathy of a large circle of friends in their great sorrow occasioned by the death of their only child. The little boy has been failing gradually the last few months, first from rheumatic fever after which dropsy set in with fatal result yesterday.

Miss Ella F. Pinkham, who has been for the past twelve years at George Stinson & Co.'s, has given up her position to accept a situation as bookkeeper at Mr. W. C. Cobb's bakery. On Thursday after noon her late associates presented her with a valuable ring. Mr. Hallett also presented her with a splendid copy of The Presidents' Lives.

The Hon. W. W. Thomas, Jr.'s graphic description of forest life and adventure entitled "A Week in a Dug-out," which first appeared in Harper's Magazine, has been translated into the French, and is published under the heading *"Une Semaine en Canot"* in L'Opinion Publique, the French illustrated journal of Canada.

Mr. W. W. Prescott of the Biddeford Union and Journal has purchased the Watchman and State Journal at Montpelier, Vt. Mr. Prescott is a young man well and favorably known in Vermont. For several years previous to 1880 Mr. Prescott was principal of the Northfield Public Schools, subsequently filling a similar position in Montpelier. In 1880 he bought the Biddeford Union and Journal, from which establishment he goes to Montpelier.

TODAY'S ELECTION.

Attention Ward Secretaries.

Let every Republican vote early today, and let no one stay away from the polls on the ground that little effort will be made on the other side. General apathy has won defeats in too many instances. Let fleneral activity command the friends of Mr. Libby on this occasion.

The Ward Secretaries will oblige by handing in the returns fsom their various Wards at as early an hour as possible to this office.

The Telephone Company.

The National Bell Telephone Company of Maine has declared a quarterly dividend of 2 1-2 per cent. payable April 10th. There has been an increase of 1000 subscribers in 1882 and hundreds are going to subscribe. Portland has over 600, and 17 were added the first two weeks in March. The new list will be out in April. The Treasurer's report states that the earnings of the company for the month of January were $4,817.20, for February $5,139.47, and for March (estimated) $5000, making a total of $14,956.67, or 14 3-4 per cent. on a capital of $400,000. The net earnings for April are $498,27 more than in January. At this rate of increase the net earnings will be in January, 1883, a gain of 4 per cent. on a capital of $500,000 in the year, yielding a total of 18 per cent. on the capital. The report states that the management expect to spend $100,000 during the next nine months.

A Warning.

We have reason to believe that many men voted for Deering illegally at the last election. If this thing is done today and proof of the same is furnished the Republican City Committee, the violators will be prosecuted to the full extent of the law.

One of the prominent actors in the Littlefield movement was heard to say last Friday, that all they want is to burst the Republican party. He told the truth.

Welego Pilsquasis.

A rare sight was witnessed on Commercial street Saturday noon. A descendant of one of our noble red men, a *welego pilsquasis* (beautiful woman) was walking arm in arm with a white man with whom she was undoubtedly well acquainted. Near Moulton street the twain stopped and entered into conversation. The white man, as it appeared, was bidding her good bye and clasped her hand in the act of giving her a parting shake, but, thinking that was not quite affectionate enough, he placed the copper-colored hand to his lips. This mark of affection touched the dusky squaw's heart and she placed her shawl to her face and shed tears, which so affected her white brother that he put his arms around her neck and kissed her passionately. Then the two linked arms and walked toward the Grand Trunk depot.

Vote Early.

The Republican committee in each ward requests our Republican voters to vote before one o'clock to enable them to get in their sick and absent vote.

Per Order.

Accidents.

A lady was thrown out of a carriag on Congress street Saturday evening by a collision with a runaway team, but was not seriously injured.

Saturday afternoon Edwin A. Bond, aged 15, was taking the leather soles from the splitting machine in the Whitney Gaiter Co.'s factory on Newbury street, when his right hand was caught in the machine and fearfully mangled. The boy stood the pain like a hero. A carriage was called and the sufferer carried to his home on Federal street, where Dr. Gordon amputated the hand at the wrist, and last evening the patient was comfortable.

The Executive Council.

The Executive Council have adjourned to meet on the 28th of March, when they will assemble to assess the tax upon the Maine railroads. They rejected the nomination of John S. Derby as County Attorney for York county and of Charles S. Lemont as Register of Deeds for Sagadahoc county.

NOT DROWNED.

John Trimm Comes to Light.

Six years ago a body was found floating in Portland harbor, and was identified by a Lewiston man, named Trimm, as that of his brother John Trimm, although the features of the corpse were much discolored and disfigured. The body was given to Mr. Trimm and he had it decently buried with proper services. The other day the supposed dead man walked into a Lewiston store alive and well. It seems John came to Portland from Lewiston a few days before the "floater" was found, with a load of hoop-poles, sold them and actuated by a freak, went west. There he read the account of his supposed death, and burial but did not think it worth while to correct the account. He ha prospered in the meantime.

The Littlefield Rally.

There was a fair-sized audience in attendance at the Littlefield rally at Lincoln Hall, Munjoy Hill, Saturday evening. Mr. S. L. Carleton called the meeting to order and addresses were made by Mr. Carleton, Gen. Dow, J. B. Fillebrown, Job Sanford, and John Brewer, Jr. The arguments were the same as brought forward at the Congress and City Hall meetings and no new points were offered.

MUSIC AND THE DRAMA.

KERRY GOW.

To-night Mr. Loseph Murphy and company will appear at Portland Theatre in "Kerry Gow. The New York Telegram says:

"That clever Irish comedian, Joseph Murphy, began a brief engagement last evening at the Grand Opera House, before a large and delighted audience, who came to witness his rendition of Dan O'Hara, in Fred Marsden's purest of all Irish dramas, "Kerry Gow." It is a story of every-day life in Ireland, and is full of fun as well as touching pathos. His songs, which are all new and original, and the dances he indulged in, were enthusiastically received and redemanded. The horse-shoeing scene, the race horse, and the carrier pigeons in their flight with the news of the race, were very interesting.

BUFFALO BILL.

Buffalo Bill will appear at Portland Theatre Friday and Saturday in John A. Stevens' play of "The Prairie Waif." The beautiful Sioux princess He-ah-Kaw (she first born), Harry E. Burgess, boy chief of the Pawnees, Flying Cloud, and the band of Winnebago Indians will appear. Buffalo Bill will exhibit his skill in rifle shooting. There will be a grand street parade led by the silver cornet band.

LIEUT. RICHARD WARDOUR.

Mr. Wheelock's engagement closed at the Portland Theatre Saturday night, and he will now rest in New York until the play is ready, together with the company, for him so that he can start on his starring tour. The audiences have steadily increased during the last week, good as they were in the beginning, and Mr. Wheelock's acting has been highly praised. We hope to see Mr. Wheelock and Miss Joyce again soon, and that then they can arrange matters so as to give us "Much Ado About Nothing," "Romeo and Juliet" and other plays in which they have heretofore delighted Portland audiences.

HARMONY LODGE.

The third anniversary of Harmony Lodge drew an audience to Odd Fellows' Hall, Saturday night, of some 400, completely packing the spacious apartment. The programme, as published in the PRESS, was fully carried out, and almost everything was encored by the delighted listeners. The Beethoven quartette of Boston sang splendidly; Mr. Chase's fine tenor was displayed to excellent advantage; Mrs. Hawes' singing is always a musical treat; Mr. W. F. Chandler played a clarinet solo with good taste and expression; Miss Celia Valentine read two selections most skilfully; Miss Mary O'Brion played an organ voluntary with power and excellent method; and Chandler's orchestra was heard at special advantage. The committee—Messrs. Merrill, Higgins, Frye, Nash and Burnham—may be congratulated on the great success of the affair. "Oscar Wilde" Cummings ushered the audience with true æsthetic effect.

NOTES.

The Beethoven Quartette of Boston were at the City Hotel Saturday night.

The "Kerry Gow" company arrived at the United States Hotel yesterday morning on the Pullman.

Only one week more to "Pinafore" by the Ideal Opera Company.

The Rentz-Santley Burlesque Novelty Troupe will appear at Portland Theatre, April 7th and 8th.

Genevieve Ward, in "Forget-me-not," at Portland Theatre, April 14th and 15th.

A large party of seventy-five from Bangor go to Boston to-day to attend the Patti opera performance, and there will be a number attend from Portland during the week. To-night "Travaita"; Thursday, "Lucia"; Saturday matinee, "Faust."

George T. Ulmer has purchased a residence in Scituate. Mr. and Mrs. (Lizzie May) will pass the summer there. Mr. Ulmer is about to start a "Danites" combination, Lizzie Ulmer playing Billie Piper. Charles Chappelle and wife, and probably George C. Boniface, will be members of the company.

Miss Emma Flaherty sang in Brunswick last Friday evening for the benefit of the new Catholic church in that place.

The Sunday Herald says: "Mr. Leonard Grover went to Portland last Thursday for the purpose of making some needed changes in "Richard Wardour," the new version of Wilkie Collin's "Frozen Deep," which was brought out at Manager Curtis' theatre there last week. The piece has the making of a very good play in it, and Mr. Joseph Wheelock has never been better suited with a part than he is with that of Lieut. Wardour."

Attention Ward Three Republicans!

The enemy have had four paid emissaries the past week in your ward drumming up their forces to come out and vote for Deering to-day. Let every Republican in the ward be on hand and checkmate them.

Business Troubles.

The Boston Herald gives the following failures for Maine:

John C. Osgood, grocer and provision dealer, Portland, has failed.

The creditors of W. H. Simpson, grocer, Sullivan, are offered 50 cents on $1.

The creditors of Charles Sabourin, boot and shoe manufacturer, Lewiston, are offered 50 cents on $1. The liabilities are about $1500, and the nominal assets $700.

The Commercial Bulletin gives the following:

C. H. Merrill, crockery, Lewiston, recently reported failed, has liabilities of $2,250 and nominal assets of $1,100.

Simmons & Burpee, grocers, Van Buren, are in insolvency.

The reported attachment of $15,000 on the property of Lorenzo Taylor of Portland was placed by parties who have brought a suit against him for $7,500 as an old claim of the Dirigo Slate Co., as Mr. Taylor claims, wrongfully. He is a man of large property and excellent credit.

Religious Tolerance.

MR. EDITOR:—The Argus has appealed to the voters who are members of the Catholic church and tried to arouse their animosity against Mr. Libby and the Republican party. To a sincere Catholic this must be offensive. Why are his religious views brought before the public at election times by Democratic speakers and papers? What has his religion to do with politics? That there are men in the community who seem to be filled with prejudice against the members of the Catholic church is true, but they are not found to any extent in the Republican party. Its principles being founded upon opposition to slavery and other forms of oppression naturally makes its members tolerant of all creeds, save Mormonism which has nothing religious in its system. The Democratic party, on the contrary has stood by slavery, and a large portion of its members of Congress appear to cherish Mormonism, by judge by their acts. In fact the Democratic party appear to favor anything that is opposed to genuine liberty. Let us see how it loves the Catholics in this city. At the late election Mr. Rynne, a Catholic, ran nearly one hundred votes behind Messrs. Merrill and Fox, his colleagues on the ticket for school committee. In wards two and four Messrs. Lappin, Murray, McAleny and Sullivan ran behind Messrs. Bradley and Cushman on the council ticket. In Ward seven Mr. Wren ran away behind his ticket. In fact the Democrats seem to act as though they hated an Irishman.

The Republican council elected Mr. Wm. H. Looney, a Catholic, to the position of city solicitor. The Democrats never thought a Catholic fit for such a place and the Argus sets up a wail of anguish and rage which has been echoed by the Democratic party in chorus the past week. The Republicans elected Mr. Looney because they thought him qualified for the place, his religious views being none of their business. The Democratic party is the party of in tolerance and the less it tries to arouse religious animosity in this community the better it will be for it. I could fill a whole page with just such facts as appear in this article.
A LOOKER ON.

Be at the Polls.

Be at the polls early,
Be there all day,

IN GENERAL.

A bill incorporating Joseph N. Greene, Wm. E. Tauster, Thos. Barry, Chas. N. Skinner, Hugh Adam Glasgow and Hugh H. Maclean, with a capital of $1,000,000, for constructing and maintaining a railway bridge across the St. Croix from St. Stephen, N. B., to Calais, is now before the Dominion Legislature. The plans are to be approved by the Governor and Council before the commencement of the work. All railways are to have equal rights in running trains over the bridge.

THEY say "a word to the wise is sufficient," but we think it takes about five, 'Use Dr. Bull's Cough Syrup.' You can get this article in any drug store for twenty-five cents. Physicians recommend it.

Lawn Dressing.
Messrs. C. W. Belknap & Son

Manufacture and keep constantly on hand a Lawn Dressing which is second to none in the world; every article of which it is composed is food for grass. It also effectually drives earth worms from the lawns, and likewise kills moss, which is often so troublesome in old lawns. After applying stable manures to lawns, also Superphosphates and many other lawn dressings now in use, it is a long time before the children can be allowed to play on them on account of the offensive odor. Not so with the composition which we offer to the public, for there is nothing of which it is composed to prevent children using the lawn as a play ground at any and all times.

☞Try it and you will use no other.
Put up in bags of 10, 25, 50 and 100 pounds.
☞Directions in each bag.
It may also be found at Messrs. Kendall & Whitney's, Market Square, W. C. Sawyer & Co.'s, No. 7 Preble Street, Geo. Blanchard & Brothers, No. 46 Union Street, and A. A. Mitchell's, corner High and Commercial Street.

POETRY.

In Pace.

[From "New Songs," by the Cambridge (England) Lotus Club.]

When you are dead, some day, my dear,
Quite dead, and under ground,
Where you will never see or hear
A summer sight or sound,
What shall become of you in death,
When all our songs to you
Are silent as the bird whose breath
Has sung the summer through?

I wonder will you ever wake,
And with tired eyes again
Live for your old life's little sake
An age of joy or pain?
Shall some stern destiny control
Of a perfect form, wherein
I hardly see enough of soul
To make your life a sin?

For we have heard, for all things born
One harvest day prepares
Its golden garners for the corn,
And fire to burn the tares;
But who shall gather into sheaves,
Or turn aside to blame
The poppy's puckered, helpless leaves,
Blown bells of scarlet flame?

No hate so hard, no love so bold,
To seek your bliss or woe;
You are too sweet for hell to hold,
And heaven would tire you so.
A little while your joy shall be,
And when you crave for rest,
The Earth shall take you utterly
Again into her breast.

And we will find a quiet place
For your still sepulchre,
And lay the flowers upon your face,
Sweet as your kisses were;
And with hushed voices, void of mirth,
Spread the light turf above,
Soft as the silk you loved on earth,
As much as you could love.

Few tears, but once, our eyes shall shed,
Nor will we sigh at all,
But come and look upon your bed
When the warm sunbeams fall.
Upon that grave no tree of fruit
Shall grow, nor any grain;
Only one flower of shallow root,
That will not spring again.

How to Treat Work Horses.

"Kay" in Coleman's Rural, gives some very good advice on the above subject, in the following paragraphs:

"A vast deal has been written about the proper manner of treating work horses, but I have never read a lecture that did not contain a great deal of tomfoolery.

All new and inexperienced horsemen should consult common sense. Study the nature and habits of the horse, and do not vary from them one iota. Never strike a horse for any other purpose than to get his attention. If he is afraid of an object and you whip him past it, you only increase his fright. Show him that the object he is afraid of will not hurt him, and he will walk up to it as fearlessly as if it was a peck of oats. If he balks and won't pull at the traces, you must remember that he also balks and won't pull at the halter. The treatment that taught him to refuse to pull backwards, is the very same treatment which induces him to pull forwards. Teach him to break a halter, and he will with all his might whenever fastened in that way. Teach him to pull a light load by the traces, and he will do his best at a heavy one—and when he does this you ought to be satisfied. Give him clean, sound feed, and a warm, soft bed to lie on in winter, even if it costs you your parlor furniture to do so. It is better to have a knot of wood for a seat and your horse bedded with clean straw, than to have a twenty dollar cushion chair and your faithful work animal dozing on his legs in a filthy stall. In the former case your horse will earn you enough to buy you a fine mahogany chair, but in the latter case your fine furniture will be sold for debt, and you will be poor as well as your horse.

Farm horses should, whenever the day is warm enough to bring out sweat, be allowed to wallow and scratch their sides and backs on the ground. They will get much more comfort in this way than you can give them with the curry-comb. Many rely on the curry-comb to keep their horse in order. It is the greatest nonsense one can practice. Clean, sweet hay and grain, and a clean, soft bed to sleep on, with a proper place to wallow, will insure a fine coat of hair and a strong, muscular body. Nothing else can. As a general rule, those not tutored in the management of horses will do well to consult the horse and treat him accordingly."

How to Tell a Good Potato.

Here is a good place to impart what is a secret to the vast majority of people, and it is one worth knowing. It is simply how to tell a good potato—that is, as well as it can be done without cooking it, for sometimes even experts are deceived. Take a sound potato, and paying no attention to its outward appearance, divide it into two pieces with your knife and examine the exposed surfaces. If there is so much water or "juice" that seemingly a slight pressure would cause it to fall off in drops you may be sure it will be "soggy" after it is boiled. These are the requisite qualities for a good potato which must appear when one is cut in two: For color, a yellowish white; if it is a deep yellow, the potato will not cook well; there must be a considerable amount of moisture, though not too much; rub the two pieces together and a white froth will appear around the edges and upon the two surfaces; this signifies the presence of starch, and the more starch, and consequently froth, the better the potato, while the less there is the poorer it will cook.—The strength of the starchy element can be tested by releasing the hold upon one piece of the potato, and if it still clings to the other, this in itself is a very good sign. These are the experiments made by experts, and they are ordinarily willing to buy on the strength of their turning out well, though, as stated above, these tests are by no means infallible.
